

# SHOYUB KHAN

📞 7330734080    ✉️ shoyub.khan01@gmail.com    🌐 Shoyub Khan    📱 Shoyub    📁 Portfolio

Computer Science student skilled in Java, SQL, and web technologies with strong problem-solving, communication, and teamwork abilities.  
Eager to apply knowledge in practical, impactful solutions.

## Education

|                                                                                                                              |                              |
|------------------------------------------------------------------------------------------------------------------------------|------------------------------|
| <b>Vellore Institute of Technology, Vellore, Tamil Nadu</b><br><i>B.Tech in Computer Science and Engineering, CGPA: 8.45</i> | <b>Sep. 2022 – Present</b>   |
| <b>Narayan Junior College, Tirupati, Andhra Pradesh</b><br><i>Intermediate (Class 12th), Percentage: 91.3</i>                | <b>Aug. 2020 – Jul. 2022</b> |
| <b>Narayana High School, Piler, Andhra Pradesh</b><br><i>10th Standard (SSC), Percentage: 96.8</i>                           | <b>Aug. 2019 – May. 2020</b> |

## Experience

|                                                                                                                                                                                                                     |                             |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| <b>iCAVE Infotech</b><br><i>Intern / Developer</i>                                                                                                                                                                  | <b>May 2025 – Jun. 2025</b> |
| <ul style="list-style-type: none"><li>Developed and designed the frontend portfolio section of the company website.</li><li>Improved user experience with responsive layouts and modern design practices.</li></ul> |                             |

## Skills Summary

**Languages:** Java, SQL, HTML/CSS, JavaScript  
**Frameworks/Tech:** MySQL, React.js, Next.js, Node.js, Express.js, MongoDB, Docker, AWS, Git  
**Tools:** VS Code, Google Colab, Jupyter Notebook, Canva  
**Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

|----------------------------------|-------------------------------|------------------------------|
| • Data Structures and Algorithms | • Object-Oriented Programming | • Database Management System |
| • Operating System               | • Software Engineering        | • Cloud Computing            |

## Technical Projects

|                                                                                                                                                                                                                                                                                                                                                                                                                               |                           |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| <b>Real-Time Chat Application</b>   <i>MERN, RabbitMQ, Microservices, Socket.IO, Redis, AWS</i>                                                                                                                                                                                                                                                                                                                               | <b>GitHub</b>             |
| <ul style="list-style-type: none"><li>Designed and developed a scalable chat platform supporting private and group messaging with Socket.IO and Redis.</li><li>Implemented RabbitMQ-based microservices to ensure reliable message queuing, fault tolerance, and smooth scaling.</li><li>Deployed the application on AWS with Docker for containerization, enabling efficient resource management and availability.</li></ul> |                           |
| <b>Lingo: Interactive Language Learning Platform</b>   <i>Next.js, TypeScript, Tailwind CSS, PostgreSQL, Stripe</i>                                                                                                                                                                                                                                                                                                           | <b>Live Demo   GitHub</b> |
| <ul style="list-style-type: none"><li>Built a Duolingo-style platform supporting Indian and foreign languages with gamified lessons, quizzes, and progress tracking.</li><li>Integrated Clerk authentication and Stripe payments for secure user onboarding and subscription management.</li><li>Utilized Drizzle ORM with Neon PostgreSQL for efficient database operations and seamless scalability.</li></ul>              |                           |
| <b>ResumeGO: AI-Powered Resume Builder</b>   <i>JavaScript, Tailwind CSS, React</i>                                                                                                                                                                                                                                                                                                                                           | <b>Live Demo   GitHub</b> |
| <ul style="list-style-type: none"><li>Developed an interactive web application to generate and customize professional resumes.</li><li>Implemented a clean UI with Tailwind CSS and optimized build using Vite for fast performance.</li><li>Integrated dynamic templates and export functionality for user-friendly resume creation.</li></ul>                                                                               |                           |

## Certifications

- Microsoft Certified: Azure AI Fundamentals
- Oracle Cloud Infrastructure Foundations Associate
- Postman API Fundamentals Student Expert

## Achievements

- Solved 150+ problems on **GeeksforGeeks**, strengthening coding and problem-solving skills.
- Represented **Andhra Pradesh State Team** in the 63rd and 64th **National School Games (U-14 SGFI Cricket)**.

## Positions of Responsibility

- Senior Core Committee Member, Soft Computing Research Society (VIT Chapter):** Helped organize workshops and events on AI and ML.
